

# Keep Our Streams Alive!

**Be careful with your lawn chemical use.  
Read the label First!**

**Excessive or Improper Use of fertilizers  
and pesticides can lead to “dead zones”  
in our waterways**

## How You Can Help

- **Apply chemicals sparingly and according to directions.**
  - **Dispose of chemicals, containers, and rinse in an approved manner.**
- **Never apply chemicals if rain is forecast.**
- **Never apply lawn chemicals on bare or eroded areas or near water sources or storm drains.**

**Together, we can keep our  
neighborhoods and streams clean!**

**To report pollution to streams call  
615-880-2420**
